

Cordesville First Baptist – Worship Minister

Realizing this is a part-time position, it is understood that the Worship Minister will not need to maintain regular office hours. However, it is expected that time will be spent in preparation for weekly services each week. The following will be required:

1. Be a professing believer of Jesus Christ and becoming a member of Cordesville First Baptist Church
2. Lead in the music ministry of the church. We are overall a very traditional music congregation who has been working toward a blending process.
3. Assist the Pastor in the preparations of the worship services
4. Provide special songs using the church choir each week in services and effectively communicate music theory to non-musical choir members
5. Select congregational songs and lead the corporate singing with understanding of sermon topics and seasonal themes to enhance each service
6. Conduct weekly choir rehearsal
7. Work with choir members and other church members to provide special music during each service, communicating with individuals performing special music – constructively and with a helpful and not critical spirit.
8. Supervise the tuning of church instruments along with audio and visual equipment
9. Organize and maintain a library of church music
10. Schedule along with the Pastor various artists/groups on a regular basis at the church
11. Work with children and youth for special music
12. Be available to play piano/organ for church services as needed
13. Employ church musicians as the church budget allows as well as finding fill-in musicians when regular musicians are away
14. Work with the church office/Pastor in helping with weddings and funerals making sure all such services are taken care of during the time of service
